Many of you have already purchased the Starter Pack and are now focusing more on releasing new numbers, but I know this is not the case for everyone. Around the holidays in particular, there is always a steady stream of parents who want to buy Starter Packs for their kids and with so many options out there, it can get very confusing, very quickly. So today I decided to put all your options together. If you're thinking of starting with Skylanders or ready to move on to the next game, these are your choices. (Also, be sure to check out the Black Friday deals, as many of these Starter Packs are part of these sales.) Standard SWAP Force Starter Pack This is the package that most Skylanders fans it is now available for six different systems and is readily available from most retailers. It is also the cheapest option with a recommended retail price of \$74.99. Note: Only the game disc and power portal are console-specific. All data, whether purchased in the starter pack or individually, can be used on any system. This package includes: This package is available for: PS3 PS4 Wii Wii U Xbox One Standard 3DS SWAP Force Starter Pack As with previous versions of Skylanders, the Nintendo 3DS version is different from all others. What I mean is that the game itself actually follows a different story. As a small reward for selecting the 3DS version, players will receive a different set of characters in this starting package. This includes volcanic eruptor, which is an in-game variant and exclusive to this Starter Pack. This package also has a recommended retail price of \$74.99. This package includes: This package is available for: Dark Edition SWAP Force Starter Pack Until now, Dark Edition is probably the most sought after Starter Pack of all. Dark Edition is a limited edition Starter Pack that is exclusively for GameStop. If you are interested in this package, I would suggest acting quickly while you can still find a few in stores and online. While this package comes with a recommended retail price of \$99.99, there is a good reason for this. Firstly, as I mentioned earlier, it is a limited edition. Secondly, it comes with two more numbers. Thirdly, all five of these numbers are actually in-game variations. When was the last time you had the opportunity to get five variants at a retail price? This package includes: This package is available for: Wii U SWAP Force Starter Pack Bundle Now we get into packages. These packages will include swap force starter pack and various other goodies depending on which package you choose. So far, it is the only package that contains the system along with the game. It is also worth noting that instead of the usual washing change, you will receive a special variant version of Wash Buckler, which is exclusive to this package. (This is not an option in the game.) This package has a recommended retail price of \$299.99. This package includes: 1 8GB White Wii U Gaming System 1 Skylanders: SWAP Force Game 1 Portal of Power 3 Skylanders Figures (Gold Wash Buckler, Blast Zone, and Ninja Stealth Elf) 1 Poster 3 Stickers 3 Trading Cards 1 Nintendo Land Game Disc This package is available for: SWAP Force Super Starter Bundle Pack Finally we have Super Bundle packages. These packages are designed to give you a better selection of characters to play with along with a small discount on buying in bulk. Note: Items found in these sets can often all be purchased individually. However, if there are no sales, this package can provide a small discount. In general, I don't think these packages are very appealing to existing fans, but they are the perfect gift for someone just getting started. In the Super Bundle Packages category, you can many options to choose from. Be careful because these packages are not available for all systems. Each package is exclusive to one store and some can only be purchased online. Walmart In addition to the standard starter package, this package contains four additional characters. Three of these characters make up the Magic Triple Pack, which is Walmart Exclusive. This package has a recommended retail price of \$99.99. This package also has a recommended retail price of \$99.99. This package is available for: Target has taken a different path with its Super Bundle pack. He's trying to give you a little bit of everything. While this package contains multiple numbers, it also contains a significant amount of non-game items. So you're going to have to decide if you care. Personally, I stick to games and numbers, but I know a lot of people who love all things Skylanders related. You have to choose between an adventure pack or a battle pack, but everything else is the same. This package has a recommended retail price of \$164.99. 1 standard swap strength starter pack 1 triple pack #1 (Lava Barf Eruptor, Slobber Tooth, Super Gulp Pop Fizz) 1 Fiery Forge Battle Pack (Bumble Blast, Fiery Forge, Knockout Terrafin)OR1 Tower of Time Adventure Pack (Pop Thorn, Tower of Time, Battle Hammer, Sky Diamond) 1 SWAP Force Trading Card Tin (includes 4 decks of trading cards and 1 dog stamp) 2 additional decks of trading cards 2 SWAP Force Qubi 3D Picture Cube/Stamps 1 Scarlet Ninjas This package is available for:
